AL JAMA-AH To Roll Out QR Code

AL JAMA-AH is ensuring that their 2024 election membership registration and access to party information is accessible to all its member fast and easy by creating a new QR code for scanning. The QR code will further take members to a platform that will help members who own SMMEs. This new QR code will be made available throughout all its public platforms and marketing materials. This will be rolled out in the first two months of 2023.

The public can now just Scan the QR code for a membership form to join AL JAMA-AH, with the payment options for the membership fee or to make a donation.

AL JAMA-AH as a party cares for South Africans and the economy, it has included a platform to offer a free point of sale application which provides a link to a business bank account for its members. This function also can be accessed via the QR code, and members can click to the relevant page. This will be further available and rolled out in rural communities and our rural members will have access to these benefits and be able to reach more customers in their business and services.

The party wants all its members to go into business, big or small and receive payments for their goods and services, even a small score making business made in a home kitchen, can result in profits going directly into a bank account for our members.

AL JAMA-AH's new membership card from 2023 will ensure that our members have benefits never seen before for a political party, including a scheme to help bury family members. AL JAMA-AH has always been a part that goes beyond membership, it is a party that cares and builds.
