NO EMBARGO**

**09 October 2023**

**AL JAMA-AH stands with Palestine's oppressed Muslims and Christians:**

Al Jama-ah Party reaffirms its full support to occupied Palestine and calls on all South Africans to support the AL AQSA FLOOD and all resistance fighters in the war against the Zionist occupiers and settlers.

The party condemns those political parties who claim to have high standards of religious values but support the Zionist occupying force; an ideological power that not only tramples upon but that literally spits on the sacred texts of both the Muslim and Christian traditions.

“The Israeli occupiers and settlers, who conveniently claim the higher moral ground, are the worst and most cruel communities during the contemporary history of humankind. Though Judaism does not teach them to willy-nilly desecrate the holy books but they – as Zionists - chose to do so; and for us, they may be described as the worst that humanity witnessed during the past seven decades; and those, who publicly abet and blindly support the Zionist system, underline that they realize the Zionists’ true intentions.

“Let us remind the Zionists and their allies around the globe that they have reached the lowest ebb in moral values by treating the Palestinian society with disdain; and we add that they have deliberately disrespected all universal humanitarian values showing to what extent they have gone against their Jewish principles; a set of values that taught them differently,” says the party’s leader and Member of Parliament Hon Ganief Hendricks.

“During this open-warfare pursued by the Palestinians against the occupiers, we witnessed how honourable the Palestinian resistance fighters have been and are in their treatment of prisoners of war, the sick, aged, women and children,” says Hendricks.

“Unlike the Zionist reports that have employed and continue to use secular media to perpetuate their biased narratives and false reports, the Palestinians have handled their Zionist prisoners that are known to have occupied the Palestinian lands illegally, in a respectful and humane manner.”

Al Jama-ah thus calls on all justice and freedom loving nations to support the righteous solidarity campaigns in support of these resistance fighters to drive out the occupiers and settlers from Palestinian land! The party stresses that no one should forget the violent terrorist acts of the Zionists terrorists against the Palestinians since before 1948!

We remember the call by Nelson Mandela and other liberation movements: “The armed struggle is the only way to end apartheid,” and this is the same way forward for Palestinians.
